WELCOME TO  
Google Calendar

# INTRODUCTION:

- Google Calendar is a time-management and scheduling calendar service developed by Google. It became available in beta release April 13, 2006, and in general release in July 2009, on the web and as mobile apps for the Android and iOS platforms. Google Calendar allows users to create and edit events.
- Developer(s): Google
- Platform: Web, Android, IOS .

# Google Calendar

## BASIC PURPOSE :

- Google Calendar is the time management and scheduling tool created by Google. It **allows you to make appointments, organize your daily tasks, and more.** The time management tool works best for people who need to simplify and plan their busy schedule.

# Google Calendar

## BENEFITS:

Google Calendar, you can quickly schedule meetings and events and get reminders about upcoming activities, so you always know what's next. Calendar is designed for teams, so it's easy to share your schedule with others and create multiple calendars that you and your team can use together.

# WHY SHOULD STUDENT USE?

With Google

Calendars, **teachers can give students a tool to help keep them organized.** Teachers may find students become better learners because they can spend less time trying to remember what they need to do. Features such as the daily schedule can also help students develop their time-management.
